

Hammock for children

Animundo africa ANH13-2

With Animundo, a padded organic hammock for children, La Siesta mirrors the manifold animal kingdoms of all continents. The first hammock of the Animundo line focuses on Africa and the animals roaming the savannah. One speciality of Animundo is the fact that it doubles as a blanket for infants and toddlers, enabling them to discover Africa all on their own. In hammock for children Animundo, children find the calm protection they need for playing

and dreaming. Soft swinging stimulates the sense of balance, thus playfully promoting your child's development. LA SIESTA hammocks for children are recommended by the German Federal Association for the Promotion of Posture and Physical Exercise. LA SIESTA hammock for children Animundo is padded and made of pure cotton from organic production, making it exceptionally warm and cosy (filling: polyester).

Hammock for children **Animundi africa** ANH13-2

Cotton from organic production

Fair to human beings, fair to nature: Organic cotton is produced complying with ecological principles. An environmentally friendly alternative to conventional cotton.

Developed in co-operation with the BAG

This product was developed in cooperation with the German Federal Association for the Promotion of Posture and Physical Exercise (BAG) in Wiesbaden. It is optimised for the special needs of children of the age of 3 and older.
