Kaya natura & Door Clamp

Kangoo & Door Clamp

If you want to be close to your baby regardless of where you are in your home, then the doorclamp is the ideal solution for hanging up a baby hammock. When changing rooms, you can take your little ones with you in their hammock in no time and they will either watch excitedly what is happening around them or they will continue to slumber while being watched by you.

The doorclamp can be mounted to any door frame that protrudes at least 5 mm from the wall with no tools or assembly being required. The doorclamp can be used for hanging up both baby hammocks Kaya and Kangoo (hammock not included).
