

Single Hammock

Sonrisa lime SNH14-4

LA SIESTA single hammock Sonrisa can be left outside all summer! Sonrisa is made of HamacTex® (polypropylene). This fibre is weatherproof, fast-drying and surprisingly similar to cotton in look and touch.

Sonrisa is from Colombia, where hammocks have always been an essential part of everyday life. A typical characteristic of all hammocks manufactured in Colombia is the open-loop-suspension.

Single Hammock **Sonrisa lime** SNH14-4

Weatherproof material

HamaTex® is a polypropylene fibre developed for the special requirements of a hammock fabric. It is surprisingly similar to cotton in look and touch, weatherproof and fast-drying. HamaTex® is also known for its resistance to weathering as well as for its colour fastness.

Open-loop-suspension

A typical characteristic of all hammocks manufactured in Colombia is the open-loop-suspension.

Tearproof selvage

The two borders of the lying surface feature a particularly tight weave. Thanks to this robust surface, exceptional stability is guaranteed.

High number of suspension cords

Additional comfort thanks to a multitude of suspension cords that distribute the weight equally to the cloth of the hammock and hence give a unique feeling of agravity.
